

# Fall Millinery Opening

SATURDAY, SEPTEMBER TWENTY-FIRST  
Your Presence Is Requested.

An hour spent here on the above date will give you a clearer idea of the correct styles for the fall and winter. Radical novelty distinguishes the new hats. So distinct are the departures from former modes, and so varied the styles that are good that any detailed description is impossible. Suffice to say, we have the correct styles in goodly numbers and at the right prices. We would also impress upon you the fact that our stock is not limited to Millinery alone. Some have told us they didn't know we carried such and such an article in stock. We make a special effort to keep in stock a class of goods that is always in demand, consisting of Tailored Skirts, Shirtwaists, Cloaks, Furs, Ladies' and Children's Underwear and a full line pertaining to Ladies' Toggery.

Yours for Business.

#### Health in the Canal Zone.

The high wages paid make it a mighty temptation to our young artisans to join the forces of skilled work men needed to construct the Panama Canal. Many are restrained however by the fear of fevers and malaria. It is the knowing ones—those who have used Electric Bitters, who go there without a fear, well knowing they are safe from malarious influence with Electric Bitters on hand. Cures blood poison too, biliousness, weakness and all stomach, liver and kidney troubles. Guaranteed by Webb Bros. druggist. 50c
